WORK EXPERIENCE

Sr. Software Engineer
Recro

03/2024 - 11/2024   *Bengaluru, India*
Achievements/Tasks

- **TON Capital**
- Designed and developed reusable components using Next & React, reducing development time for new features by 30%.
- Optimized page load time through lazy loading, code-splitting, and image optimization techniques, resulting in a 15% increase in overall session duration.
- Implemented SEO best practices to optimize web applications for speed and scalability, achieving a nearly 20% improvement in overall website performance.
- Collaborated with cross-functional teams to gather requirements and ensure alignment with business objectives, driving successful project delivery keeping the quality high.
- **Adaptive**
- Designed scalable component structures, ensuring a modular, reusable, and maintainable codebase.
- Collaborated closely with UX/UI designers to ensure design consistency and implemented responsive designs that worked seamlessly across devices. Also integrated APIs, ensuring seamless data flow, and maintaining code quality across the entire application.
- Implemented server-side rendering to improve performance and SEO.My role involved troubleshooting complex issues, optimizing performance, and ensuring a smooth user experience.

Frontend Developer
TrustCheckr (A Truecaller Company)

03/2021 - 09/2023   *Bengaluru,India*
Achievements/Tasks

- **Trustcheckr**
- Designed scalable, modular components using React.js, Next.js, Material UI, JavaScript, HTML, and CSS for a reusable and maintainable codebase.
- Developed a user-friendly dashboard that offered in-depth insights, including trust scores, personal details, and web presence, for queried phone numbers.
- I designed user profile and payment pages, enabling users to manage personal data, subscriptions, and premium payments.
- **Loan compare India**
- Developed user interfaces with React.js, React Router, JavaScript, HTML, CSS, and Material UI.
- Created a user-friendly homepage for easy loan applications for user needs.
- Through this interface, users could input loan specifics such as amount, duration, and employment, gaining access to loan provider information and initiating the application process seamlessly.
